

## **Application for childcare contributions (from August 1, 2024)**

Please note that you must submit the complete application with all the necessary documents at least one month before your child enters the childcare center.

Childcare contributions are granted from the beginning or middle of the month following the month in which the complete application was submitted. Childcare contributions aren't granted retroactively.

### **1. Personal data of parents**

Partners who have lived in the same household for more than five years must also be declared, even if they are not the mother/father of the child.

## 6. Application for basic childcare contribution

All families pay a maximum of CHF 1,600 per full-time place per month – regardless of income and assets. All families receive a basic childcare contribution. We calculate this basic contribution without taking your income and assets into account. You do not have to provide us with any information about your income and assets.

**→ We need an employment contract or a confirmation from your employer stating your working hours in percentage, valid upon date of entry in the daycare center.**

In order to receive the basic contribution, you must meet every entitlement for childcare contributions.

## 7. Information on income and assets

The childcare contribution depends on the parents' income and assets. The basis for the calculation is the last tax assessment of the Canton of Basel-Stadt. We are authorized to inspect these in accordance with the «Gesetzes über die Harmonisierung und Koordination von bedarfsabhängigen Sozialleistungen vom 25. Juni 2008 (SoHaG, SG 890.700)».

Do you have a current tax assessment from the Canton of Basel-Stadt?	yes	no*
Do your current income and financial circumstances (for new entrants at date of entry in the daycare center) differ by 20% or more from your last tax assessment?	no	yes*

\* If no tax assessment of the Canton Basel-Stadt has yet been calculated (new arrivals or persons subject to withholding tax) or if your current income and financial circumstances (for new arrivals at date of entry in the daycare center) differ by 20% or more from your last tax assessment, we will calculate your childcare contributions based on documents that you submit to us. The list of required documents can be found under [point 9 Documents](#).

We also need the following information:

Number of children under the age of 25 in education (including children not living in the same household):		
Do you receive non-taxable support from public or private funds (support from private individuals, support from foundations, etc.)?	yes	no

## 8. Reporting Obligation, Confirmation and Signature

You must report any significant changes to your entitlement to childcare contributions or to your income or assets. This includes, for example, a change in household or marital status (e.g. separation or divorce), a change in family circumstances (e.g. birth of a child) or a change in work or training hours. If your annual income and assets change by at least 20% for more than three months, you must also notify us. The notification must be made no later than one month after you become aware of the change.

We confirm that the information provided is complete and correct.
